HOW TO INSTALL

DEFENDER

CLEAR PPF

GSWF

RECOMMENDED CLEAR PPF INSTALLATION SOLUTION

When installing our clear line of PPF, we have a well tested liquid solution to achieve flawless results. Please note the following solution chart:

SLIP

Water

4 Litres

Dawn ULTRA

(w/Measured Syringe)

2ml (Advanced Installers)

2.5ml (More Slip)

TAC

Straight Water

i

It is VERY important to keep in mind that our PPF requires approximately **5 X less soap** than other leading brands. Too much soap will increase the difficulty of your installation.
